Quick Introduction

Motivated final-year Computer Science student with strong problem-solving skills and hands-on experience in software development, cloud-based solutions, and AI. Deeply interested in emerging technologies and passionate about building impactful projects.

Education

Sathyabama University, BE in Computer Science Aug 2022 – May 2026

- **Coursework:** Data structures and Algorithm, Java, C, Python, Computer Architecture, Comparison of Learning Algorithms, Computational Theory
- Current CGPA: 7.4

Technical Skills

- **Languages:** Python, Java
- **Web Technologies:** HTML, CSS, JavaScript, React
- **Databases:** SQL, PostgreSQL, SQLite, Firebase, Supabase
- **Version Control:** Git, GitHub, GitLab

Experience

Zillion Technologies Inc. | SDE Intern June 2025 – August 2025

- I worked on developing an AI-powered pipeline to automatically label multimodal data (text, images, audio, and video) without predefined labels. I also built a dynamic JSON fetcher system that allowed querying S3 JSON files using custom schemas, ensuring flexible and accurate data retrieval.

Wayhike Inc. | SDE Intern (Remote) June 2024 – Dec 2024

- During my internship, I contributed to the front-end development and logic of a web-based car inventory management system for a car dealership. I helped implement features for inventory tracking, expense management, and media uploads, ensuring a smooth user experience.

Projects

- **Warranty & Invoice Tracker App**
Developed a serverless warranty tracking app using Supabase (Auth, Database, Storage) for secure invoice storage, user management, and automated expiry alerts.
- **SQLBOT – Chat with Your Database**
Developed SQLBOT, an AI-powered assistant to query databases using natural language for instant, conversational access.
- **Smart Food Contribution Web Application**
Created a full-stack web app during a national hackathon to connect donors with recipients, reducing food waste efficiently.

Certifications

- **Web Application Development Using Django** - [Link](#)
- **Oracle Cloud Infrastructure** - [Link](#)
- **Introduction to MongoDB** - [Link](#)
